

Pamunkey Regional Library

Your NOOK & OverDrive, Part 2

These instructions refer to later NOOK devices, like the HD/HD+, or NOOK by Samsung. For directions on how to download OverDrive eBooks to your NOOK eReaders 1st Edition or Simple Touch, or the NOOK Color and NOOK Tablet, please see Part 1.

Before you get started, you need to create a free account with Adobe. Go to <http://adobe.ly/newadobeid> to sign up with Adobe. Click '**Don't have an Adobe ID?**' and fill in the boxes with a red asterisk (*). Did you write your password down? Is it something you can easily remember? Let's get started!

Step 1 - Download OverDrive Media Console from the Play Store

This is the software you will use to download eBooks and audiobooks (ePubs and mp3s) you check out from the library directly to your NOOK Color, HD/HD+, or Tablet.

- Open the Play Store from your device. You may need to sign in or register your device. Search for OverDrive in the Play Store and then select the OverDrive app. Tap **Install**, **Accept** the app permissions, and tap **Open** once the app has installed.
- Once OverDrive Media Console is installed you will be asked to authorize your NOOK. This is where you will use the Adobe ID (e-mail address and password) you created earlier.

B&N's version of Overdrive Media Console is OMC for Android. You can find help online at <http://help.overdrive.com/customer/portal/articles/1481622>

Step 2 - Find PRL in OverDrive Media Console

- Open OverDrive Media Console. (if it is not already open)
- Find the '**Get Books**' option. (It's in a different location depending on your device. You may need to select it from your device menu.)
- Choose '**Add a Library**' on the next screen. (The option may also be '**Find a Website.**')
- Search for '**Pamunkey**' in the search box.
- Select '**Pamunkey Regional Library**' from the list.
- Tap or click the star next to our library name to add us to your library list. By doing this, the app will remember we are a library you use frequently. When you go to '**Get Books**' in the future you won't have to search for us.

Step 3 - Find an eBook to download

- In OverDrive Media Console, go to '**Get Books**'.
- Select our library.
- Browse or search for a title you want.
- Select '**Borrow**'.
- Enter your library card number and PIN.
- For eBooks:
 - Select '**Download**' to read the book in the app.
 - Choose '**EPUB**' then '**Confirm & Download**' to download the book to the app's '**Bookshelf.**'
 - Select '**Read**' to read the book in your internet browser (*may not be available for all titles*)
- For audiobooks:
 - Select '**Download**' to download the audiobook to the app's '**Bookshelf.**'
