## Your eReader & OverDrive

Follow the steps below and you'll be reading free eBooks from the library in minutes.

Before you get started, you need to create a free account with Adobe. Go to <http://adobe.ly/adobeaccount> to sign up with Adobe. Click '**Create an Adobe Account**' and fill in the boxes with a **red** asterisk (\*).

Did you write your password down? Is it something you can easily remember? Let's get started!

### 1. Download Adobe Digital Editions

This is the software you will use to manage all of the eBooks you check out from us. You must have this installed **on your own computer** (not a library computer). You can't download OverDrive eBooks directly to your eReader.

- Visit <http://adobe.ly/deditions> and follow the instructions for downloading and installing the latest version of Adobe Digital Editions.
- Once Adobe Digital Editions is installed you will be asked to **authorize** your computer. This is where you will use the Adobe ID you created above. Use that same email address and password to authorize your computer.
- **Download** any other software required for your device (ex. Sony Reader requires Reader Library software).

### 2. Find a book to download

- Go to <http://pamunkey.lib.overdrive.com>.
- **Browse** and find an eBook you want.
- Click **Borrow**.
- Enter your library card number.
- Click on the **Download** button and select Adobe EPUB
- Click on the **Confirm and Download** button to download it to your computer.
- If prompted, choose to open the file. Adobe Digital Editions will automatically open when the book finishes downloading.

### 3. Transfer the book to your eReader

- **Connect** your eReader to your computer. (A link for your eReader is displayed under '**Bookshelves**' in Adobe Editions. Whenever you use a new device with OverDrive, you will be prompted to 'authorize' it. If prompted, follow the instructions on your screen, using the Adobe ID created above.)
- **Click** on the eBook you want to **transfer**.
- **Drag and drop** the eBook to the link for your eReader under '**Bookshelves**.' (The eBook is transferred to your eReader.)
- **Disconnect** your eReader.
